Terms of Sale

Delivery Free on orders of \$1.00.

Smaller orders 15c extra. All transportation charges to be paid by purchaser on all foreign orders.

Sales Tax must be included on all orders in the state of Kansas.

Time of Delivery: I recommend planting between July 15 and October 1. However, orders will be filled any time during the season until the ground freezes, with the exception of the month of May which is our blooming season.

Guarantee: My guarantee is, *you must be pleased.* If you are not satisfied after opening the package return it to me at my expense. There will be no quibbling over details, and your return postage will be refunded. All plants guaranteed true to name and free from disease. There are no Iris borers in this section. I grow my own plants, and every order is filled with the utmost care.

Substitutions: I will not substitute unless given permission to do so. However, it is impossible to keep a stock of Iris complete during an entire season and it is very satisfactory both to customer and dealer to make a second choice, and to encourage this I will include a beautiful Iris free of charge in every order that names two or more substitutes.

AMERICAN IRIS SOCIETY

Rugged Kansas Grown Iris

Customers from all parts of the Country write me of the wonderful results obtained the very first year from these healthy sun ripened bulbs grown natures own way, with just the proper development to give amazing results.

Husky, drouth resistant, disease free and fresh from our fields to you.

This Spring finds many new Iris novelties on the market. Some are sure to be very good. The question is, which will be outstanding and improvements on varieties already being offered at honest value prices?

Just watch the spring Iris shows and notice what varieties take the prizes. I predict the many fine standard and tried varieties will come in with a fine showing. They always have.

Price does not guarantee exclusiveness only for a short period of time. Remember not very long ago, Blue Velvet and Mrs. Marion Crau were each listed at \$50.00. Both were good and still are. Friends be your own judge. Were they over priced?

Now the point is this. To honest flower lovers, who want real beauty in their yards and feel they are entitled to honest value for their money, I make the open assertion that you will find varieties listed as low as 25c, some less, that will compare in quality and rating with the best that is on the market at any price.

It is a pleasure to personally recommend, some that should be in every garden. All good growing varieties with individual beauty. To head such a list, I can think of nothing finer than Deputy Nombrot, followed by Golden Light, Valor, Frieda, Mohr, Grace Sturtevant, Waconda, Helios, Crystal Beauty, Crysoro, Red Wing, Clara Noyes, Noweta, Sir Michael, Klamath, Blue Bonnet, Shirvan, Baldwin, Ramesses, Shiwassie, Theodolinda, Jean Cayeux, Venus de Milo, Gilead, Dauntless, Beau Sabreur, Euphony, Folkwang, Balroudour, Golden Bow, Morning Glory, Blue Monarch, Andante, Numa Roumestau, King Juba, Anndelia, Magenta, Dolly Madison, Alice Harding. Please do not infer this list is in any way complete but just a guide to a few of the fine things available at honest prices.

If you have not already done so, be sure and read my guarantee.

The same one I have done business by for years.

PERSONAL GREETINGS

Thanking my patrons both old and new for the spontaneous response of last season.

Your splendid testimonials, cheery personal messages, yes and even gifts are cherished as lovely boquets; each an inspiration to try to serve you better.

May the best of everything be yours for 1940 and always.

Early Dwarf Iris

MESSENGERS OF SPRING

One of the most interesting groups of the Iris family. Often these little fellows will be seen welcoming the first spring days even before the snow is entirely gone. They should be used liberally in the sunny rock garden and are fine border plants for hardy perennial beds or walks. Blooming period covers about five weeks just ahead of the intermediate group.

- ATROVIOLACEA**—5 in. A perfect little gem of richest red violet. 4 for 25c. Each 10c

Fall Blooming Iris

A newly developed race of Iris coming in dwarf, intermediate and tall bearded types. Blooming in early spring and again in autumn, creating new interest at a time when our garden enthusiasm is low. These naturally are best adapted to those sections of the country where the falls are long and mild, though favorable reports have been received from customers in the far northeast. It is quite essential that they are watered during the summer to help produce new growth and vigor for the second crop of blossoms. They are all rugged varieties, and make an excellent spring showing, blooming here at tulip time.

- AUTUMN ELF—8 in. A perky little fellow with ruffled S. of olive cream; F. lavender with cream margin. FRAGRANT. Each 25c
- AUTUMN HAZE—Large flowered and orchid like in appearance. S. soft lavender; F. orchid deepening at center with an effective orange beard. 30 in. Very fine. 3 for 40c. Each 20c
